MINIMUM VIABLE PRODUCT (MVP)	
At what stage of development are you on for your chosen product/service?	
☐ We are in full operation, producing and distributing our product ☐ We have a working model of our product but have not yet started commercial production ☐ We have a robust product idea which we can turn into a working model in a matter of months ☐ We have a rough idea of our potential product	
How is your business or product or technology relevant to climate change adaptation?	
☐ Our product can assist consumers or other businesses to adapt to climate change. ☐ Our technology or production methods are superior in terms of environment friendliness or climate change adaptation compared to current practices in our industry. ☐ We are affected or likely to be affected by climate change and need to find ways to adapt to the changes to survive and thrive. ☐ We do not know exactly how our business is relevant to climate change adaptation. ☐ Other (specify): _____	

Briefly describe your existing or **proposed minimum viable product** (MVP).
